# CIDC

We are constantly striving to get better and inculcate the love for debating in as many people as we can. In our pursuit of this goal the Central Indian Debating Championship is just another step we felt we should take after the success of the Intra Bhopal Parliamentary Debate. Our aim we believe, of instilling a culture of debating and critical thinking, of questioning and logical genesis of novel ideas has never been more important than in these times. That is why we are back and bigger than before with an Asian Parliamentary Debating Tournament that is open to participants from the five central Indian states of Bihar, Madhya Pradesh, Chattisgarh, Uttar Pradesh and Jharkhand.

With this modest hope of inspiring people to come out and speak up and share their thoughts about various things leading to the synthesis of new ideas, we are proud to undertake this endeavor. We hope to see as many participants as we possibly can support.
